PART I—FUNDING OPPORTUNITY DESCRIPTION

A. Legislative Authority and Background

Sections 3(b) and 3(c) of the Smith-Lever Act provide funding for agricultural extension programs at 1862 Land-grant universities.

States are eligible for funds appropriated under this Act according to the following formula: Out of each annual allocation, each State will be entitled to receive a sum of money equal to the sums available from Federal cooperative extension funds for the fiscal year 1962, and subject to the same requirements as to furnishing of equivalent sums by the State, except that amounts heretofore made available to the Secretary for allotment on the basis of special needs shall continue available for use on the same basis. Further, the University of Guam and the University of the Virgin Islands will receive \$100,000 each in addition to the sums appropriated for the several States of the United States and Puerto Rico under the provisions of sections 3(b) and 3(c) of the Smith-Lever Act. Of the remainder so appropriated for each fiscal year 20 per cent will be paid to the several States in equal proportions, 40 per cent will be paid to the several States in the proportion that the rural population of each bears to the total rural population of the several States as determined by the census, and the balance will be paid to the several States in the proportion that the farm population of each bears to the total farm population of the several States as determined by the census. Any appropriation made under sections 3(b) and 3(c) of the Smith-Lever Act will be allotted in the first and succeeding years on the basis of the decennial census current at the time the appropriation is first made, and as to any increase, on the basis of decennial census current at the time such increase is first appropriated.

In FY 2007, the former CSREES conducted a Grants.gov pilot for the solicitation of one of the CSREES Formula Programs, the McIntire-Stennis Cooperative Forestry Program. Under this pilot the institutions were required to submit a SF-424M Application (Cover Page Form), CSREES Supplemental Form, and Key Contacts Form through Grants.gov. NIFA implemented this process for all NIFA Formula Programs in FYs 2008 and 2009 and thereafter due to the mandated reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA). Under this law, the U.S. Office of Management and Budget (OMB) was required to develop and maintain a public searchable data base for all Federal financial assistance awards, and Federal agencies are required to report specific data elements which will be collected via these applications (e.g., Dun and Bradstreet Data Universal Numbering (D-U-N-S®) numbers, legal names of institutions, legal addresses, congressional districts). OMB makes this information available at <http://www.usaspending.gov>.

In FY 2010, NIFA requires an initial submission (based on estimated amounts per the 2009 Omnibus Appropriations Act) followed by a final submission (based on the actual appropriated amount for FY 2010 and the actual formula distribution for FY 2010). The initial submission took place and CSREES now requests the final submission via this FGO. NIFA is not requiring the following forms for FY 2010 for the final submission:

- Standard Form (SF) 424-A, Budget Information for Non-Construction Programs
- Budget Narrative Attachment Form

Please note that the submission of this application package does not change the following:

- Delegated authorities of the Extension Director;
- How funds are managed at your institution;
- Indirect costs and tuition remission are unallowable costs; and
- Matching waiver authority of Smith-Lever section 3(b) and 3(c) funds for 1862 Land-grant Institutions in the Insular Areas.

Guidelines for the administration of this program are published as Chapter III, Financial Operations, of the Administrative Handbook for Cooperative Extension Work, which may be accessed at <http://www.nifa.usda.gov/business/awards/formula/manuals/coopextension.pdf>. Please note that any instructions in this FGO supersede policies and procedures identified in this manual. In 2010, NIFA will revise this manual and promulgate administrative provisions for this program through rulemaking which includes a public comment period.

B. Purpose and Priorities

The purpose of this funding is to conduct agricultural extension work.

PART II—AWARD INFORMATION

A. Available Funding

The Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act, 2010 (Public Law 111-279) provides \$275,205,766 in FY 2010 for this program.

Funds will be distributed to the institutions on a quarterly basis. See Appendix A for the specific allocation.

Funds appropriated under sections 3(b) and 3(c) of the Smith-Lever Act are expected to be fully expended in the fiscal year of appropriation; however, funds may be carried over for up to four years after the end of the year for which they were appropriated.

B. Types of Submission

In FY 2010, pre-award form submissions must be submitted to the Cooperative Extension Programs at 1862 Land-grant Institutions program as a “new” application on the www.grants.gov website. As noted previously, these application packages complement, rather than duplicate, the information collected via the Plan of Work (POW) system, and together satisfy all legislative and regulatory pre-award requirements.

Section 202 of the Agricultural Research, Extension, and Education Reform Act of 1998 (AREERA) amended the Smith-Lever Act and the Hatch Act to require approved plans of work for agricultural extension and research activities at 1862 Land-grant Institutions in order to receive Federal funding. Therefore, each 1862 Land-grant Institution must submit both a 5-Year

Plan of Work Update for FY 2010-2014 (i.e., submitted each year as an update) and an Annual Report of Accomplishments and Results. Both reports were due by April 1, 2009.

C. Project Types

Applicants should request funding at the amounts listed in Appendix A to this announcement. Cooperative extension programs at 1862 Land-grant Institutions are identified in approved 5-Year Plans of Work. These activities should consist of the development of practical applications of research knowledge and giving of instruction and practical demonstrations of existing or improved practices or technologies in agriculture, uses of solar energy with respect to agriculture, home economics, and rural energy, and subjects relating thereto to persons not attending or resident in 1862 Land-grant Institutions in the several communities, and imparting information on those subjects through demonstrations, publications, and otherwise and for the necessary printing and distribution of information in connection with the subjects.

PART III—ELIGIBILITY INFORMATION

A. Eligible Applicants

Applications may be submitted by the following 1862 Land-grant Institutions: Auburn University, University of Alaska-Fairbanks, American Samoa Community College, University of Arizona, University of Arkansas, University of California, Colorado State University, University of Connecticut, University of Delaware, University of Florida, University of Georgia, University of Guam, University of Hawaii, University of Idaho, University of Illinois, Purdue University, Iowa State University, Kansas State University, University of Kentucky, Louisiana State University, University of Maine, University of Maryland-College Park, University of Massachusetts, Michigan State University, College of Micronesia, University of Minnesota, Mississippi State University, University of Missouri, Montana State University, University of Nebraska, University of Nevada-Reno, University of New Hampshire, Rutgers University, New Mexico State University, Cornell University, North Carolina State University, North Dakota State University, Northern Marianas College, Ohio State University, Oklahoma State University, Oregon State University, Pennsylvania State University, University of Puerto Rico, University of Rhode Island, Clemson University, South Dakota State University, University of Tennessee, Texas A & M University, Utah State University, University of Vermont, Virginia Polytechnic Institute & State University, University of the Virgin Islands, Washington State University, West Virginia University, University of Wisconsin, and University of Wyoming.

Award recipients may subcontract to organizations not eligible to apply for funding provided that such arrangements are necessary to complete the project.

B. Cost Sharing or Matching

Section 3(e)(1) of the Smith-Lever Act (7 U.S.C. §343(e)(1)) states, with regard to institutions in the 50 states, “no allotment shall be made to a State under subsection (b) or (c), and no payments from the allotment shall be made to a State, in excess of the amount that the State makes

available out of non-Federal funds for cooperative extension work.” However, section 3(e)(4) of the Smith-Lever Act (U.S.C. §343(e)(4)) provides that “Effective beginning for fiscal year 2003, in lieu of the matching funds requirement of paragraph (1), the insular areas of [American Samoa,] the Commonwealth of Puerto Rico, Guam, [Micronesia, the Northern Marianas Islands,] and the Virgin Islands of the United States shall provide matching funds from non-Federal sources in an amount equal to not less than 50 percent of the formula funds distributed by the Secretary to each of the insular areas, respectively, under this section..... The Secretary may waive the matching fund requirement [of 50 percent] for any fiscal year if the Secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year.”

PART IV—SUBMISSION INFORMATION

A. Address to Request Formula Grants Opportunity Package

Only electronic applications may be submitted via Grants.gov to NIFA in response to this FGO.

Prior to preparing an application, it is suggested that the State Extension Director, or his or her designee, first contact an Authorized Representative (AR) to determine if the organization is prepared to submit electronic applications through Grant.gov. If the organization is not prepared, the AR should see http://www.grants.gov/applicants/get_registered.jsp for steps for preparing to submit applications through Grants.gov.

The State Extension Director, or his or her designee, also must contact the institution’s AR in order to be granted permission for the submission of applications through Grants.gov. Once that permission is granted, the State Extension Director, or his or her designee, can obtain a login and password.

The steps to access application materials are as follows:

1. In order to access, complete and submit applications, applicants must download and install a version of Adobe Reader compatible with Grants.gov. This software is essential to apply for NIFA Federal assistance awards. For basic system requirements and download instructions, please see http://www.grants.gov/help/download_software.jsp. To verify that you have a compatible version of Adobe Reader, Grants.gov established a test package that will assist you in making that determination. Grants.gov Adobe Versioning Test Package: <http://www.grants.gov/applicants/AdobeVersioningTestOnly.jsp>.
2. The application package must be obtained via Grants.gov, go to <http://www.grants.gov>, click on “Apply for Grants” in the left-hand column, click on “Step 1: Download a Grant Application Package and Instructions,” enter the funding opportunity number “**USDA-NIFA-SLBCD-002817**” in the appropriate box and click “Download Package.” From the search results, click “Download” to access the application package.

If assistance is needed to access the application page (e.g., downloading or navigating PDF forms, using Adobe with a Macintosh computer), refer to the resources available on the Grants.gov Web site first (<http://grants.gov>). Grants.gov assistance is also available as follows:

Smith-Lever Act sections 3(b) and 3(c) Federal funding must be used for extension programs and activities identified in the institution's approved 5-Year Plan of Work.

(2) Matching

Section 3(e)(1) of the Smith-Lever Act (7 U.S.C. §343(e)(1))states, with regard to institutions in the 50 states, "no allotment shall be made to a State under subsection (b) or (c), and no payments from the allotment shall be made to a State, in excess of the amount that the State makes available out of non-Federal funds for cooperative extension work." However, section 3(e)(4) of the Smith-Lever Act (& U.S.C. §343(e)(4)) provides that "Effective beginning for fiscal year 2003, in lieu of the matching funds requirement of paragraph (1), the insular areas of [American Samoa,] the Commonwealth of Puerto Rico, Guam, [Micronesia, the Northern Mariana Islands,] and the Virgin Islands of the United States shall provide matching funds from non-Federal sources in an amount equal to not less than 50 percent of the formula funds distributed by the Secretary to each of the insular areas, respectively, under this section..... The Secretary may waive the matching fund requirement [of 50 percent] for any fiscal year if the Secretary determines that the government of the insular area will be unlikely to meet the matching requirement for the fiscal year."

NIFA may consider and approve matching waivers submitted by Insular 1862 Land-grant Institutions (American Samoa, Guam, Micronesia, Northern Marianas Islands, Puerto Rico, and the Virgin Islands).

(3) Indirect Costs and Tuition Remission

In accordance with section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3319), indirect costs and tuition remission are unallowable as Sections 3(b) and 3(c) of the Smith-Lever Act formula grant expenditures.

(4) Other Restrictions

No portion of these funds may be applied, directly or indirectly, to the purchase, erection, preservation, or repair of any building or buildings, or the purchase or rental of land, or in college-course teaching, lectures in college, or any other purpose not specified in this Act.
