## **PART I—FUNDING OPPORTUNITY DESCRIPTION**

### **A. Legislative Authority and Background**

Section 1433 of the National Agricultural Research, Extension, and Teaching Policy Act Of 1977, enacted as Title XIV of Public Law 95–113 (The Food and Agriculture Act of 1977) on Sept. 29, 1977 is also known as the Animal Health and Disease Research (AHDR) Program. This law provides the basis for Federal funding for research activities into animal health and diseases at accredited State schools or colleges of veterinary medicine or agricultural experiment stations that conduct animal health and disease research.

States are eligible for funds appropriated under this Act according to the following formula: One half of the State allotment will be distributed among the States in the proportion that the value of and income to producers from domestic livestock, poultry, and commercial aquaculture species in each State bears to the total value of and income to producers from domestic livestock, poultry, and commercial aquaculture species in all the States, based on the most current inventory of all cattle, sheep, swine, horses, poultry, and commercial aquaculture species published by the Department of Agriculture. The remainder of the State allotment will be distributed among the States in the proportion that the animal health research capacity of the eligible institutions in each State bears to the total animal health research capacity in all the States, as determined by NIFA.

In FY 2007, the former CSREES conducted a Grants.gov pilot for the solicitation of one of the CSREES Formula Programs, the McIntire-Stennis Cooperative Forestry Program. Under this pilot the institutions were required to submit a SF-424M Application (Cover Page Form), CSREES Supplemental Form, and Key Contacts Form through Grants.gov. Please note that this application package replaced the forms/information solicited each year by the CSREES Office of Extramural Programs and did not duplicate the information being collected under the Current Research Information System (CRIS). CSREES implemented this process for all CSREES Formula Programs in FYs 2008 and 2009 thereafter by NIFA due to the mandated reporting requirements of the Federal Funding Accountability and Transparency Act (FFATA). Under this law, the U.S. Office of Management and Budget (OMB) was required to develop and maintain a public searchable data base for all Federal financial assistance awards, and Federal agencies are required to report specific data elements which will be collected via these applications (e.g., Dun and Bradstreet data Universal Numbering (D-U-N-S®) numbers, legal names of institutions, legal addresses, and congressional districts). OMB makes this information available at <http://www.usaspending.gov>.

In FY 2010, although NIFA will require both an initial submission (based on the estimated amounts per the Senate Report 111-039, Agricultural, Rural Development, Food and Drug Administration & Related Agencies Appropriations Bill, 2010) and a final submission (based on the actual appropriated amount for FY 2010 and the actual formula distribution for FY 2010), NIFA will not require the following forms for FY 2010 for either submission:

- Standard Form (SF) 424-A, Budget Information for Non-Construction Programs
- Budget Narrative Attachment Form

Please note that the submission of this application package does not change the following:

- Delegated authorities of the Dean or Director;
- How funds are managed at your institution; and
- Indirect costs and tuition remission are unallowable costs.

Guidelines for the administration of this program are published as The Administrative Manual for the Continuing Animal Health and Disease Research Program, which may be accessed at <http://www.nifa.usda.gov/business/awards/formula/manuals/animalhealth.pdf>. Please note that any instructions in this FGO supersede policies and procedures identified in this manual. In 2010 NIFA will be revising this manual and promulgating administrative provisions for this program through rulemaking which includes a public comment period.

The 2009 Omnibus Appropriations Act (Public Law 111-8) provides \$2,950,000 for the AHDR Program under NARETPA section 1433.

## **B. Purpose and Priorities**

The purpose of this funding is to increase animal health and disease research activities at accredited State veterinary schools or colleges or agricultural experiment stations that conduct animal health and disease research.

## **PART II—AWARD INFORMATION**

### **A. Available Funding**

Subject to any 2010 Continuing Resolutions, funds will be distributed to the institutions on a quarterly basis and according to the amounts allocated in FY 2009. Adjustments will be made to the allocations for FY 2010 once the FY 2010 appropriations are finalized. See Appendix A for the specific allocation.

AHDR funds must be fully expended in the fiscal year of appropriation; no waiver requests may be considered and approved as no carryover authority is provided in the authorizing legislation.

### **B. Types of Submission**

In FY 2010, pre-award form submissions must be submitted to the AHDR Program as a “new” application on the [www.grants.gov](http://www.grants.gov) website.

Specific project details and pertinent information should be entered in the Current Research Information System (CRIS) as in prior years. CRIS is the U.S. Department of Agriculture's documentation and reporting system for ongoing agricultural, food and nutrition, and forestry research and education. CRIS contains over 30,000 descriptions of current, publicly-supported research and education activities. This work is sponsored or conducted by the USDA research agencies, the State agricultural experiment stations, the State land-grant colleges and universities,

State schools of forestry, cooperating schools of veterinary medicine, and USDA grant recipients. See Part VI.C. for specific CRIS requirements.

### **C. Project Types**

Applicants should request funding at the same level as stated in Appendix A to this announcement. NIFA will fund the AHDR program in FY 2010 for approved AHDR projects.

## PART IV—SUBMISSION INFORMATION

### A. Address to Request Formula Grants Opportunity Package

Only electronic applications may be submitted via Grants.gov to NIFA in response to this FGO.

Prior to preparing an application, it is suggested that the Dean of the School or College of Veterinary Medicine (Dean) or Director of the Agricultural Experiment Station (Director) first contact an Authorized Representative (AR) to determine if the organization is prepared to submit electronic applications through Grant.gov. If the organization is not prepared, the AR should see [http://www.grants.gov/applicants/get\\_registered.jsp](http://www.grants.gov/applicants/get_registered.jsp) for steps for preparing to submit applications through Grants.gov.

The Dean or Director, or his or her designee, also must contact the institution's AR in order to be granted permission for the submission of applications through Grants.gov. Once that permission is granted, the Dean or Director, or his or her designee, can obtain a login and password.

The steps to access application materials are as follows:

This software is essential to apply for NIFA Federal assistance awards. For basic system requirements and download instructions, please see [http://www.grants.gov/help/download\\_software.jsp](http://www.grants.gov/help/download_software.jsp). To verify that you have a compatible version of Adobe Reader, Grants.gov established a test package that will assist you in making that determination. Grants.gov Adobe Versioning Test Package: <http://www.grants.gov/applicants/AdobeVersioningTestOnly.jsp>.
2. The application package must be obtained via Grants.gov, go to <http://www.grants.gov>, click on "Apply for Grants" in the left-hand column, click on "Step 1: Download a Grant Application Package and Instructions," enter the funding opportunity number "USDA-NIFA-AHFP-002645" in the appropriate box and click "Download Package." This form should not be submitted to USDA.

## **D. Submission Dates and Times**

The application package containing an “Application for Federal Assistance,” Form SF-424 Mandatory; “NIFA Supplemental Information Form,” and “Key Contacts Form,” should be submitted online at the [www.grants.gov](http://www.grants.gov) website by COB on November 30, 2009 (5:00 p.m. Eastern Time).

The receipt of all applications will be acknowledged by e-mail. Therefore, applicants are strongly encouraged to provide accurate e-mail addresses on the Key Contacts Form on the [www.grants.gov](http://www.grants.gov) website.

**If an applicant has not received an acknowledgment within 60 days of the submission, the applicant must contact the Agency contact (see Part VII) immediately and ask for the application number assigned to the application. Failure to do so may result in the application not being processed and funding being held.** Once the application has been assigned an application number, this number should be cited on all future correspondence.

## **E. Funding Restrictions**

### **(1) Approved NIFA AHDR Projects**

AHDR Federal funding must be used on AHDR approved projects.

### **(2) Matching**

7 U.S.C. 3200 provides that “No funds in excess of \$100,000 ... shall be paid by the Federal Government to any State under this subchapter during any fiscal year in excess of the amount from non-Federal sources made available to and budgeted for expenditure by eligible institutions in the State during the same fiscal year for animal health and disease research. The Secretary is authorized to make such payments in excess of \$100,000 on the certificate of the appropriate official of the eligible institution having charge of the animal health and disease research for which such payments are to be made. If any eligible institution certified for receipt of matching funds fails to make available and budget for expenditure for animal health and disease research in any fiscal year sums at least equal to the amount for which it is certified, the difference between the Federal matching funds available and the funds made available to and budgeted for expenditure by the eligible institution shall be reapportioned by the Secretary among other eligible institutions of the same State, if there are any which qualify therefore, and, if there are none, the Secretary shall reapportion such difference among the other States.”

### **(3) Indirect Costs and Tuition Remission**

In accordance with section 1473 of the National Agricultural Research, Extension, and Teaching Policy Act of 1977 (7 U.S.C. 3319), indirect costs and tuition remission are unallowable as AHDR formula grant expenditures.
