# Veterinarian Shortage Situation Nomination Form

To be completed by the chief State or Insular Area Animal Health Official or his/her designee

## Veterinary Medicine Loan Repayment Program (VMLRP)

### Nomination of Veterinarian Shortage Situations for the Veterinary Medicine Loan Repayment Program (VMLRP) Authorized Under the National Veterinary Medical Service Act (NVMSA)

**Note: Please submit one separate nomination form for each position. See solicitation for number of nominations permitted for your state or insular area.**

#### Location of Veterinary Shortage Area for this Nomination

Note: If this nomination is for a public practice position, please provide the location of the home office or the center of service area.

Location of Veterinary Shortage: Piute, Garfield, Kane  
(e.g., County, State/Insular Area)

Center of Service Area or  
 Location of Position: 700 No. Main Street, Panguitch, Utah 84759  
(e.g., Address or Cross Street, Town/City, and Zip Code)

#### Type of Veterinary Practice Area/Discipline/Specialty

Type I Shortage: Private Practice  
 Food Animal Medicine (at least 80 percent time)  
 Please select **one or more** specialties requested for this position:

- Beef Cattle
- Dairy Cattle
- Swine
- Poultry
- Small Ruminant
- Other \_\_\_\_\_

Type II Shortage: Private Practice – Rural Area  
 Food Animal Medicine (at least 30 percent time)  
 Please select **one or more** specialties requested for this position:

- Beef Cattle
- Dairy Cattle
- Swine
- Poultry
- Small Ruminant
- Other : \_Equine\_\_\_\_\_

Type III Shortage: Public Practice (at least 49 percent time\*)  
 Employer: \_\_\_\_\_ Position Title: \_\_\_\_\_  
 Please select **one or more** specialty/disciplinary areas.

- Food Safety
- Public Health
- Epidemiology
- Other: \_\_\_\_\_

Please describe the objectives of a veterinarian meeting this shortage situation as well as being located in the community, area, state/insular area, or position requested above (limit your response to 200 words or less).

1. Establish a rural veterinary practice in Panguitch Utah to serve the private practice needs of Piute, Garfield, and Kane counties.
2. Accreditation for the practicing veterinarian in order to address program disease needs of federal and state governments. As an example, tuberculosis and brucellosis program monitoring and testing.
3. Be able to perform antemortem and postmortem inspection of animals intended for human consumption at the small, federal and state inspected facilities in these counties.
4. Act as a professional resource to the community regarding zoonotic diseases especially endemic to southern Utah (e.g., plague, hanta virus, Arizona rabies, hydatid disease)
5. Address the companion animal needs of the ranching and farming communities, along with those needs of the small, rural municipalities in the three counties in reference to their public health rabies and pet over population mandate.

Please describe the activities of a veterinarian meeting this shortage situation and being located in the community, area, state/insular area, or position requested above (limit your response to 200 words or less).

We envision this veterinarian establishing a clinic in Panguitch, UT near the tri-county equestrian arena and fair grounds. Panguitch is a centrally located community in regards to normal human traffic in the area. This veterinarian would base their practice from this clinic. Because of the remote nature of these counties, this practitioner would need to have a mobile clinic from which to practice from during farm and ranch calls. The fixed facility would be capable of addressing emergency small and large animal needs. Handling facilities would be necessary to allow traditional testing of food animals for diseases of importance.

Please describe any past efforts to recruit and retain a veterinarian in the shortage situation identified above (limit your response to 100 words or less).

In the late 1990's there was a veterinarian who was located in Panguitch and served the area described above. His practice was very busy. While returning home after a farm call he was tragically killed in an auto accident. The community has actively tried to recruit another veterinarian, even to the point of offering community based incentives, without success. Community leaders attribute this failure to the extreme debt load that makes practice in more urban areas more lucrative and therefore more attractive to veterinarians.

Please describe the risk of this veterinarian position not being secured or retained. Include the risk(s) to the production of a safe and wholesome food supply and to animal, human, and environmental health not only in the community but in the region, state/insular area, nation, and/or international community (limit your response to 250 words or less).

Because of the veterinary shortage in this area, many food animal related issues have become problematic. As an example, in order for cattle to be shipped properly between states, certificates of veterinary inspection are needed to accompany the cattle. Due to the shortage of veterinarians, this is often overlooked and has become a problem in this region.

Please indicate whether you consider this situation/position a candidate for a "service in emergency" agreement (limit your response to 100 words or less). Please see solicitations for additional information regarding the obligation of participants who enter into the "Service in Emergency" agreement.

Authorized State or Insular Area Animal Health Official or designee:

Name: Bruce L. King, DVM

Title: State Veterinarian

Organization: Utah Department of Agriculture and Food

Email: bking@utah.gov

Telephone Number: (801) 538-7162  
(Area code required)

Public reporting for OMB control number 0524-0046 is estimated to average two hours, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a current valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to NIFA, OEP, 800 9<sup>th</sup> St. SW, Washington, DC 20024, Attention Policy Section. Do not return the completed form to this address.
