

BEHAVIOR CHECKLIST DOCUMENTATION
Source of Questions 001 - 028

The first series of questions in the behavior checklist database are designated with only numbers (001 - 028) and were generated in the process of creating the present 10-question checklist. They are either questions that were dropped from the original 15-question checklist, or were recommended by the Behavior Checklist Subcommittee, but not included in the base questions. The questions with letters and numbers indicate the state from which they originated (Background on the origination of these questions are found on subsequent pages).

Below is the source of questions 001 - 028

<u>Question ID</u>	<u>Source of Question</u>
001	Slight revision from original Question 7
002	Slight revision from original Question 8
